Programming & Development

About Nanodegrees

Level-Up Your Workforce

Partner with Udacity and offer your workforce the opportunity to learn valuable new skills to solve tomorrow's most complex challenges.

Your workforce is your strongest asset. Udacity for Enterprise offers world-class, digitally-driven Nanodegree programs and the one-to-one support you need to stay current with digital transformation trends.

Empower your workforce to master new skills via learning paths — series of related Nanodegrees designed for learners to quickly progress from acquiring foundational level skills to applying their newly-gained expertise in real-world settings.

Udacity also offers Executive programs tailored especially for managers, directors, and other leaders in your company.

The Udacity Classroom Experience

REAL-WORLD PROJECTS

Learners build new skills through industry-relevant projects and receive personalized feedback from our network of 900+ project reviewers. Our simple user interface makes it easy to submit projects as often as needed and receive unlimited feedback.

KNOWLEDGE

Answers to most questions can be found with Knowledge, our proprietary wiki. Learners can search questions asked by others and discover in real-time how to solve challenges.

LEARNER HUB

Learners leverage the power of community through a simple, yet powerful chat interface built within the classroom. Learner Hub connects learners with their technical mentor and fellow learners.

WORKSPACES

Learners can check the output and quality of their code by testing it on interactive workspaces that are integrated into the classroom.

QUIZZES

Understanding lesson concepts is made simple with auto-graded quizzes. Learners can easily go back and brush up on concepts at anytime during the course.

CUSTOM STUDY PLANS

Mentors create a custom study plan tailored to learners' needs. This plan tracks progress toward goals.

PROGRESS TRACKER

Personalized milestone reminders help learners stay on track and focused throughout the program.

Our Nanodegree Programs Include

Pre-Assessments

Our in-depth workforce assessments identify your team's current level of knowledge in key areas. Results are used to generate custom learning paths designed to equip your workforce with the most applicable skill sets.

Dashboard & Progress Reports

Our interactive dashboard (enterprise management console) allows administrators to manage employee onboarding, track course progress, perform bulk enrollments and more.

Industry Validation & Reviews

Learners' progress and subject knowledge is tested and validated by industry experts and leaders from our advisory board. These in-depth reviews ensure your teams have achieved competency.

Real World Hands-on Projects

Through a series of rigorous, real-world projects, your employees learn and apply new techniques, analyze results, and produce actionable insights. Project portfolios demonstrate learners' growing proficiency and subject mastery.
